# Dynamesh DYNABOND Super Adhesive

DYNABOND Super Adhesive is an easy to use cyanoacrylate adhesive system that binds virtually all types of mesh to any type of frame. It is available in a range of viscosities designed to work with a wide variety of mesh counts.

To use, simply stretch the mesh to the desired tension and apply DYNABOND Super Adhesive to the screen with the squeeze bottle, making a fine bead. Then, spread the adhesive evenly with a card, and optionally, apply an adhesive primer like DYNABOND Aerosol Activator. This will dry DYNABOND Super Adhesive within 20 seconds.

## PRODUCT OPTIONS

Series	Viscosity (cP) <sup>1</sup>	Suggested Mesh Counts (/in)
5	5	200 - 508
150	100	60 - 355
300	300	30 - 305
600	600	15 - 180

## PURCHASING OPTIONS

### Available in

16 Ounce Squeeze Bottle

#### FOOTNOTES

1. Please note that the viscosities of these products can increase slightly over time as they are stored. The values listed are approximations.
