

product solution

Dynamesh DYNABOND Activator

DYNABOND Activator is an adhesive primer designed to work in conjunction with cyanoacrylate adhesives such as DYNABOND Super Adhesive. It “primes” or activates the adhesive to form a quick and permanent bond. It also ensures consistent curing each and every time.

In particular, the DYNABOND Activator 10 oz aerosol spray helps eliminate “surges” associated with pump spray products that can contribute to overlaps and missed spots, weakening the bond.

FEATURES

- Shelf life of over a year
- Contains no ozone-depleting compounds
- VOC Compliant CARB/OTC
- Will cure bonds between mesh and wooden or metal frames

PURCHASING OPTIONS

Available in

8 Ounce Pump Spray, 10 Ounce Can, 1 Quart Sizes

- * *Free shipping offer only valid for DYNABOND and RhinoTech adhesive products. Must be either a new customer, or an existing customer ordering adhesive products for the first time. Some additional restrictions may apply. [Contact your sales person](#) for more details and to order.*
