

product solution

Dynamesh DYNACHEM Emulsion Remover

DYNACHEM Emulsion Remover is a revolutionary highly concentrated and extremely cost effective liquid solution. It is designed to aggressively dissolve direct/indirect emulsions, capillary films, dual-cure systems, pure photopolymer, and direct projection emulsion systems.

FEATURES

- An economical product, it can be mixed with water at a ratio of 1 part chemical to 30 parts water or up to 1 part chemical to 55 parts water
- Biodegradable, simplifying use, disposal, and environmental concerns
- An aggressive stencil stripper for all commonly used stencil systems, on all mesh types

PURCHASING OPTIONS

Available in

1 Quart, 1 Gallon, 5 Gallon, 55 Gallon sizes
