

POLY WHITE INK

DYNAPRINT Poly White is a phthalate-free printing base designed for use with polyester fabrics that enables an elastic, soft touch and excellent coverage.

ADVANTAGES

- Provides excellent white coverage for underbases
- When used correctly, does not dry on screens during printing
- Does not contain phthalates (**NOTE:** Contains PVC)
- Specially designed for high efficiency with polyester fabrics

APPLICATIONS

- Ideal for 50/50 (50% cotton / 50% polyester), Tri-blend (cotton / polyester / rayon), and polyester fabrics. (**NOTE:** For polyester fabrics, Poly White ink should be used in conjunction with DYNAPRINT Antimigration base to prevent color migration)

USAGE

- Can be combined with ink tins/pigments
- Stir well before using. Do not use any additives not recommended by manufacturer.
- Clean screen with appropriate screen wash after use

STORAGE & SHELF LIFE

- Keep containers dry and tightly closed. Store in a well-ventilated place between 41°F and 86°F (5°C - 30°C).
- Use within 2 years of the production date
