

MESH INSERT INJECTION MOLDED FILTERS

 ABS	 Brakes (Master cylinder)	 Compressors	 HVAC	 Water filters	 Air conditioners	 Washlet toilets	 Bathroom dehumidifiers	
 Power steering (Electric)							 Washer / Dryers	 Fire alarms
 Injectors							 Air purifiers	
 Pressure regulators								
 Oil pumps (Electric)							 Variable valve timing	 Fuel gasses (CNG/LPG systems)

OPTIMIZED CUSTOM PLASTIC MOLDED FILTERS: Custom plastic molded filters are made by combining various types of mesh and plastic materials. Our years of experience and cultivated knowhow assists you in optimizing the design and specifications of your injection molded filters. These filters are used for many purposes in automobiles and home appliances.

UNIQUE PRODUCTION SYSTEM & RELIABLE QUALITY CONTROL SYSTEM: At NBC Meshtec, we have implemented integrated manufacturing for all processes from the weaving of Functions of Technical Fabrics to insert molding using our uniquely developed automated machines.
