

RhinoClean™

PRODUCT DATA SHEET

PW118™ Press Side Wash

Description

- A lower odor, biodegradable, press side wash designed to work quickly and efficiently on U.V. and Solvent Inks to open dried or clogged screen images during production runs.
- Ideal for efficient and expedient screen washing after the press run.

Directions

1. To remove ink from the open areas and bottom of screens, apply PW118™ to cloth and wipe the screen, beginning at the bottom.
2. To remove dried ink in screen images, brush, wipe or spray PW118™ onto squeegee-side of screen and wipe clean.
3. To clean screen following production run; remove remaining ink, then spray screen or apply PW118™ to cloth and wipe thoroughly to remove excess ink.
4. Wipe screen again with a clean, dry cloth to remove any excess.

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
